World Catalogue of the Dermestidae (Coleoptera)

The World Catalogue of the Dermestidae (Coleoptera) contains a complete list of subfamilies, tribes and subtribes, genera and subgenera, species and subspecies, including new nomenclatural acts, new distributional records, list of type depositions, infrasubspecific names, bibliography and an alphabetical index of genera, subgenera and synonyms. This is the third edition of the „World catalogue of the Dermestidae“ published by the author.

Jiří HÁVA (1972)

Czech Entomologist, Taxonomist in Coleoptera. He currently works as entomologist at Private Entomological Laboratory & Collection, Únětice near Prague.
